

20<sup>th</sup> October 2015

Dear Parent(s)/ Carer(s),

As part of our initial baseline testing process all students will be given a dyslexia screening assessment. This is a series of short computer based tests which help to identify if there are any particular weaknesses that may affect students' literacy. It also helps to distinguish between those students who may be having general difficulties in literacy and those whose difficulties are associated with dyslexia.

We believe that the early identification of students with difficulties is vital so that teachers can put in place the appropriate support to allow students to succeed.

During the next half term your child will take part in this assessment, the results will be collated and then shared with you.

If you have any further questions or concerns about this process please feel free to contact me.

Yours faithfully,

Jodie Harnan

(SENCo)
