Homework Booklet

KS3 Levels 3-8

Unit 14 – Volume and Surface Area

Remember to use the back of a page if you need more working out space.

Complete this table indicating the homework you have been set and when it is due by.

Date	Homework	Due By	Handed In

Please take care of the booklet as you will be required to make a donation to replace it if lost or damaged beyond use.

U14 – Volume and Surface Area

Volume
Calculator Allowed

1) Each cube measures 1cm^3 . Find the Volume of the following shapes.

2) Find the volume of each cuboid. **Volume = Length x Width x Height**

3). A cuboid fish tank has a base $50\text{cm} \times 90\text{cm}$ (Width by Length). If the water is filled to a depth of 40cm find:

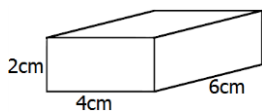

- a) the volume of the water in cm^3
- b) the volume of the water in litres.

U14 – Volume and Surface Area

Surface Area
Calculator Allowed

Calculate the surface area of each one.

The net for this cuboid  looks like this:

So the surface area of the cuboid = 88cm^2

For each of the following cuboids calculate the surface area.

U14 – Volume and Surface Area

Volume
Calculator Allowed

The volume of each cuboid is given. Use it to find the length of each missing side.

9).

10).

11).

12).

13).

14).

15).

16).

Find the Volume of the following triangular prisms (don't forget your units)

17).

18).

19).

20).

Find the missing side of the following triangular prisms.

Volume of a Prism = Area of cross section \times length

U14 – Volume and Surface Area
Volume and Surface Area
Calculator Allowed

1. Calculate the volume of these prisms

2. Calculate the volume and surface area of the following

3. A bucket has a radius of 11cm and is 22cm tall. I am going to use it to fill a paddling pool that has dimensions 1m by 3m by 1m. How many times will I have to fill the bucket up until the paddling pool is full?

U14 – Measures and Mensuration

Pyramids

Calculator Allowed

1. Calculate the volume of this pyramid

2. Calculate the volume of this pyramid

3. Calculate the volume of this shape

U14 – Measures and Mensuration
Cones
Calculator Allowed

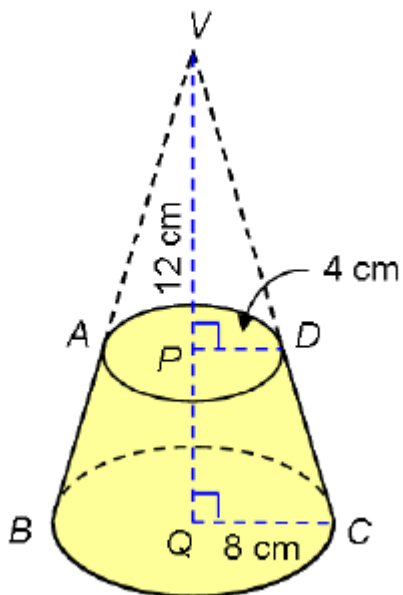

1. Calculate the volume of this cone

2. Calculate the volume of this cone

3. Calculate the volume of this shape

U14 – Measures and Mensuration
Volume and Surface Area
Calculator Allowed

1.

The diagram shows a child's toy.

The toy is made from a cone on top of a hemisphere.

The cone and hemisphere each have radius 7 cm.

The total height of the toy is 22 cm.

Work out the volume of the toy.

Give your answer correct to 3 significant figures.

2. Calculate the volume

U14 – Measures and Mensuration
Volume and Surface Area
Calculator Allowed

1,

Diagram NOT accurately drawn

The diagram represents a large cone of height 6 cm and base diameter 18 cm.

The large cone is made by placing a small cone *A* of height 2 cm and base diameter 6 cm on top of a frustum *B*.

Calculate the volume of the frustum *B*.
 Give your answer in terms of π .

2.

Calculate the surface area and volume of the following solid
